POETRY.

Let it Alone.

BY CHARLES SWAIN.

Though the bowl and the bumper
With spirit be filled;
Though the nectar, like Jove's,
Be ambrosia distilled;
Though wit, song, and laughter,
Lend joys of their own;
Take counsel from caution
And let them alone.

If a friend have a scheme
That he shows, very clear,
Will bring you two thousand,
Or upward, a year;
Though it seem like a fortune
To other hands thrown,
Take counsel from caution
And let it alone.

The fountain of fortune
But slenderly flows;
Wealth, got in a moment,
As suddenly goes!
And Wine's giddy laughter,
'Tis easily shown,
Brings sorrow hereafter—
So let it alone.

"To Normond."
The dear old past twines round my
heart
Like a dead vine round a tree;
I dream of the ones of other days,
And my thoughts steal back to
thee.

They steal back to that Sabbath eve
That twilight by the sea,
When I turned away from all the
world
To find a world in thee.

Thou art not absent in thy grave,
Nor absent after the sea,
But thou art absent in thy love,
And my world is lost to me.

The rain is falling from the clouds,
The scar leaves from the tree,
And the tears are falling from my
eyes,
To the memory of thee.

Oh, once thy smiles were warm and
sweet,
As a sunning flower-tree;
But now they are cold! ah, very
cold!

And fall like frost on me.
There is a rain-bow in my soul
Which in my dreams I see—
'Tis formed of the last rays of thy
love

And the tears of my memory.
Thou never, never call me false—
False I can never be,
My love's a river strong and deep,
Flowing down eternally.

JULIA, of Mobile.

THE MOUTH OF THE MISSISSIPPI.
De Bow's Review for the present
month reiterates the appeals often
made upon Congress for grants to
carry out enlarged improvements
at the mouth of the Mississippi.
Three plans have been presented
and discussed at different periods
for the accomplishment of the ob-
jects. One is to deepen by dredg-
ing machines two of the principal
passes, at an estimated cost of
\$370,000, with a subsequent annual
expenditure of 72,000. Another
to close all but one of the passes
where they leave the river banks;
estimated cost, \$527,000. The
third, to cut a ship canal from a
point below Fort Jackson to the
Gulf, costing, including all contin-
gencies, \$10,000,000. Consider-
ing the immense commerce of this
great inland sea, any of these a-
mounts insignificant in comparison
with the end to be accomplished.
De Bow publishes a diagram rep-
resenting the appearance of the bar
in May last, when property val-
ued \$1,500,000 was detained.
It is computed that the losses from
detention alone would in a single
year pay for almost the entire im-
provement. The Review remarks:
"Upon the single item of freight
alone it is estimated that the use of
smaller vessels to which the shall-
owness of water is driving the
commerce of the West, instead of
those of largest size and capacity,
will be attended with a loss of \$2
per bale, or \$2,800,000 annually
upon the cotton crops; and equally
as much, perhaps, upon the total
crop of other articles of export.
In all about \$5,000,000 per an-
num."

A Tight Place.

During the process of re-build-
ing the lower portion of New York
city, which was destroyed by the
great fire of 1835, two Irishmen,
employed as hod carriers upon a
block of brick stores in Beaver
street, were seen loitering about
half an hour after the other work-
men had left the premises one even-
ing. There was a quantity of stag-
ing and other lumber lying about,
loose, in different parts of the build-
ing, which these men had not lost
sight of during the day, and they
remained behind to secure a back-
load of boards, which they had
found leisure, in the afternoon, to
get together at the top of the house
where they had been at work.

When it had got to be thorow-
ly dark, Patrick ventured to as-
cend the ladder leading to the half-
finished roof, followed by his friend
Michael, for the purpose of secur-
ing the plunder they had gathered
together.

Having gained the upper story,
the two friends leisurely commene-
d to "wood up," when Patrick sud-
denly dropped his pile, and turned
wildly to his companion with the
interrogation:

"What's that?"
"Murder," shrieked Michael in
response; and in another instant
the two lumber thieves had scram-
bled, one over the other, out upon
the edge of the rear wall of the
building, as the entire front went
down with a crash into the street!
The back wall trembled violently
with the shock, the heavy timber
gave way at one end, and Patrick
having seized upon it as it partially
descended, Michael clung to his
skirts with the desperation of a
drowning man; and the two friends
found themselves on a sudden,
dangling between heaven and
earth, in the darkness, from the
edge of the frail timbers!

"Oh! bad luck to it, Michael!"
shouted Patrick as he clung to the
conductor, "what are ye doing?"
"Faith, Patrick, I'm houldin'
meself fast to that beautiful fut of
yours!"

"Ah, begorra, Michael, we're done
for! Let go the fut, man—let go
the fut, or we're murthered, the both
of us, ye see!"
"Ah, begorra, Michael, mind
yer business with the timbers now,
fomint ye, there; and don't be
botherin' yerself with the fut. It's
sure ye may be that Michael Mal-
oney will take care of the fut."

"Let alone yer hout, ye spalpeen
ye! It's meself as wudn't be kilt
wid ye! Let go, I say!"
"Och, Pat, is this the way ye
trate a friend that's clung to ye for
nigh a year? By the powers ye
may well say that Michael Maloney
wudn't quit ye now, and, tighten-
ing his gripe, Michael seemed de-
termined upon adhering to the only
chance apparently left him for
safety from a terrible death."

Michael shouted "murder," at
the top of his voice, and really did
all in his power to attract any aid
which might chance to be within
hearing distance; but Patrick found
it impossible to support his own
weight and his friend's beside, and
after several violent kicks and
struggles, Michael found he must
go for it, or bring down his com-
panion.—Deciding it to be better
to leave his friend to the chances
than to destroy Patrick as well as
himself, he made up his mind to
swing off, though a broken skull,
shattered limbs, or certain death,
seemed inevitable. Having re-
ceived a most unchristian like hint
on the top of his cranium from the
boot-heel of his friend's fut which
happened to be at leisure, his de-
termination was hastened.

"Och, then, good bye, Patrick!"
said Michael, in a sort of dying
speech, "bad luck to it; but I didn't
stale the boards, Patrick, mind ye.
Good bye; I'll be smashed into
pergatory, for cert'n, I will. I'll
ound on the timber, Patrick and look
to me wife and children—ow!" and
with a most unearthly scream he
quit his grip upon his friend's fut,
who gave him a final to devil wid
ye! and down went Michael with
a rush.

It so chanced, 'E in the darkness,
that the frightened Irishmen had
not the remotest idea of their real
position. One end of the timber
to which Patrick clung, had lodged
as it was falling, upon the adjoining
building, distant only about fifteen
feet from the ground; so that Mich-
ael had been dangling all the while
in fact, but about a foot from the
earth! At the moment he quit his
hold upon Patrick's fut, he imagined
he was being launched
into eternity, and his surprise may
be conjectured when he found that
instead of this, he was launched
safely into a muddy passage way

which ran between the buildings!

"Howly, Murther!" continued
poor Patrick, still clinging in des-
pair to the gutter, some six feet
from terra firma, "Oh, me wife and
children!—Help! Murther! help!"

"Come down out o' that, ye blud-
hderin' fool!" exclaimed Michael,
evidently disappointed to find that
he wasn't hurt at all. "Down wid
yer, I say! It's a mighty fuss ye're
makin' up there about math'n!"
"What—Michael, is it yersel'
there?"

"Bejabbers, ye're wakenin' the
street wid yer bloody howlin'—
come down, I say, and leave the
boards till morning!"

Patrick was soon released from
his plight by the aid of a short lad,
der which Michael procured near-
by, and the two friends jogged
along homewards, declaring that
they had never been in so tight a
place before.

Whenever they had occasion to
provide themselves with fire-wood
afterwards, both Michael and Pat-
rick did it by day-light!

TEMPERANCE CONVENTION.—The
State Temperance Convention met
at Selma on Wednesday last, 24th
inst. The members were closely
occupied until next day at 12
o'clock p. m., when they adjourned
to meet again at the same place on
the 31 Wednesday in May next.

More than three hundred and
fifty delegates were present, rep-
resenting forty five counties. The
two prominent questions under
consideration in the convention
were, the Maine Liquor Law and
the draft of another to be called
the "Alabama Law," the latter of
which is to be advocated before the
people and proposed to the next
Legislature. The Maine Law,
though it had many warm and
eloquent advocates from the inter-
ior of the State, was laid aside and
the other adopted as the platform
for temperance men in this State.
The reform proposed is confined
chiefly to the license system. It
provides for a direct vote by the
people upon this question, and
where a majority of voters in any
beat, precinct, town, city or county
is opposed to the sale of liquors by
retail under the present system, it
becomes unlawful to issue licen-
ces.

The entire proceedings of the
convention are soon to be published
by authority.

INCOGNITION.—Since the abo-
lition of flogging in the merchant
marine, without the substitution of
any other efficient punishment,
there has been a growing spirit of
insubordination, which, if not
speedily checked, will inflict a fa-
tal blow upon our commercial
prosperity. In our police report
will be found an account of a revolt
on board the packet ship New
York, just cleared for Liverpool,
which has resulted in the arrest of
six of the offenders, and the conse-
quent detention of the vessel in the
stream with 60 passengers on
board. The laws which protect
sailors on board of merchant vessels
from abuse, have always been lib-
erally interpreted in their favor,
and they have been almost unis-
formly well treated, with the largest
liberty consistent with the main-
tenance of order and the discipline
necessary to work ship. But since
the abolition of the cat a large
portion of those who ship for ser-
vice, and draw their advance,
seem to think that the only rule
for their conduct is their own cap-
rice. This results disastrously for
the owners, while at the same time
it exerts an evil influence upon the
sailor himself.—N. Y. Journal of
Commerce.

REMEDY FOR BOLL WORM IN COR-
TOS.—Messrs. Editors.—I notice,
in your paper and others, accounts
of the destructive ravages of the
boll worm on cotton. A remedy
of course desirable and impor-
tant. Is the following new to you?
Destroy the stalks of last year's
crop, and the present year the
crop will be free from the worm.
The philosophy of it is, that the
worm deposits an egg in the stalk
which remains there during the
winter and produces a new worm
next season.

We saw it stated lately
that to perform the labor done in
England by hand would require
every full-grown man in the world.
To those who are opposed to the
use of machinery instead of manu-
al labor, this fact is a sufficient an-
swer.

Railroad Convention.

The Annual Convention of the
stockholders of the Alabama and
Tennessee River Railroad was held
at Shelby Springs, on Wednesday,
the 24th ult. We had not the
pleasure of being present, but are
much gratified to learn that the re-
port of the President and Directors,
which was submitted to the Con-
vention, gives a highly encouraging
account of the operations and pro-
gress of the road since the Annual
meeting, and of the present condi-
tion of the Company. We under-
stand the report shows among other
things that the cost of the gradua-
tion, masonry and bridging of the
road to the Coosa River, say about
\$5 miles, as shown by the work so
far completed, and by the con-
tracts entered into, and proposals
accepted, will fall considerably
short of the estimates of the Chief
Engineer, as submitted by his last
Annual report. We hope a son to
have it in our power to lay at least
an abstract of this report before our
readers.

The rapid progress this great
work has made certainly reflects
great credit on those, who have had
the management of it.

Having referred to this Conven-
tion, we cannot, as faithful and in-
dependent journalists, dismiss the
subject, without alluding to a mat-
ter, which is, in our estimation, of
very great moment to the Compa-
ny. It is this. We learned with
astonishment—a much stronger
term might be applied—that the
gentleman, who has stood at the
head of the Company from its very
existence, in civil and good report,
in adversity and in prosperity, and
to whose able, persevering and un-
tiring exertions, during the last
three years and upwards, the work
as it stands may be said mainly to
owe its very existence—we say, we
learned with astonishment, and
with feelings of regret, which we
cannot find language to express,
that this gentleman has been su-
perseded in the Presidency of the
Company. We do not wish to be
misunderstood on this point. Our
regrets do not spring from the fact
that the gentleman who succeeded
Mr. Lapsley is not every way wor-
thy of the honorable and responsi-
ble station. Far from it! No man
in this community—and the sphere
might be widened much—ranks
more deservedly as a gentleman of
honour, integrity and ability, than
Col. Wm. S. Phillips, the gentle-
man chosen to succeed Mr. Laps-
ley. He has been long and favora-
bly known to the people of this
county; he has represented them
as long as he desired in the Senate
of the state; and he might well
have aspired to a higher station.—
In no man have the people of this
community more explicit confi-
dence than in Col. Phillips. He
was once a lawyer of distinction in
this country, but retired from the
bar, some years ago, in conse-
quence, as we understand of feeble
health. If, then, it was necessary,
Mr. Lapsley should be superseded,
the company, certainly could not
have been more fortunate in the
choice of a successor. We feel
bound to state further that Col.
Phillips was not present at the con-
vention, and we have the most
convincing evidence that he had
nothing whatever to do with the
movement, which supplanted Mr.
Lapsley, and was ignorant, as were
we, and this community generally,
that a serious attempt would be
made to confer the Presidency on
any other one than the gentleman,
whose long and successful labors
had proven him to be so eminently
entitled to the office. Col. Phillips
and Mr. Lapsley have long been,
and we doubt not still are, and will
continue to be, intimate and per-
sonal friends. Although Col. Phil-
lips was not present at the conven-
tion, we are informed he was so far
represented as to have his vote cast
for Mr. Lapsley. Our regrets,
therefore, do not arise from any
doubt as to the worthiness or cap-
acity of Col. Phillips, but simply from
the fact, that in our judgment,
under existing circumstances, Mr.
Lapsley should not have been su-
perseded by any man living; and
in this judgment, we believe we
will be supported by a great ma-
jority of this community, stock-
holders of the company, and others.—
It is well known, here at least, that
Mr. Lapsley's labors, in the cause
of the company, have been unre-
mitting and intense for a number
of years; that not only his time and
talents, but his money and his
credit, have been freely devoted
and expended for the success of the
enterprise. That occupying a high
position at the bar of this county,
he has not hesitated to put in jeop-

ardy, if not, indeed, to sacrifice a
large portion of the emoluments of
a lucrative and successful practice
as a lawyer; and it cannot be
doubted has thus made large pecu-
niary sacrifices. It is known that
he was absent the most of last
winter in endeavoring to procure
Legislative aid for the company;
that he spent a considerable por-
tion of last Summer and Fall at the
North in the service of the com-
pany, and recently returned, after
having, with the aid of the able and
accomplished Chief Engineer of the
company, succeeded in placing the
credit of the company on so high
and firm a basis, as to enable it to
command on favorable terms the
funds required for the vigorous and
successful prosecution of the great
enterprise. Who of our citizens
can have forgotten the joy which
permeated this community from the
announcement that Mr. Lapsley's
mission had been successful? Is it
not known, too, that the *Entor-
prise* and this paper, simultane-
ously, in compliance with what seemed
to be the general sentiment of the
community, proposed to offer to
Mr. Lapsley on his return the com-
pliment of a public dinner? These
things are still remembered; and
yet, astonishing to relate, we un-
derstand it was the corporate vote
of Selma, based on a subscription of
\$35,000, which caused the defeat of
Mr. Lapsley? We do not wish to
descend to particulars, yet, judging
from all we know and have heard,
we boldly and fearlessly assert, and
the assertion, we have no doubt,
will be sustained by a general ac-
claim from the citizens of this
place, and the corporate authorities,
that the vote was not, and is not, in
accordance with the sentiments and
wishes of either the people or the
authorities of the city, or any con-
siderable portion of them; but that
the reverse is the case. We desire
to make no imputations, but we feel
bound, as honest and independent
journalists, to state strongly, in this
instance, what we consider to be
the truth.

A very considerable portion of
the stock in this county was not
represented, and the same, we are
informed are true as to other sec-
tions. For instance, we learn that
a large vote from Cherokee county,
the whole of which would have
been cast for Mr. Lapsley, against
any competitor did not arrive in
time to be counted. It had been
known generally to the stockhold-
ers—and it certainly was not in this
community, that any thing like a
serious effort would be made to
supplant Mr. Lapsley, the scheme
could not have succeeded. His friends,
and the stockholders generally,
would have rallied to his support in
such strength and numbers as to
render all efforts to supplant him by
any name, however high or honor-
able, utterly futile.

In retiring from the honorable
position, the arduous and responsi-
ble duties of which he has discharg-
ed with so much zeal, fidelity and
success, Mr. Lapsley is cheered
with the assurance that he will
carry with him the confidence,
the respect, and may we not add
the gratitude of the community,
where he is best known, and where
his services are acknowledged and
appreciated. Though he is no lon-
ger at the head of the Company,
and though his sphere of usefulness
is for the time being circumscribed,
we know him too well not to be as-
sured that his zeal and exertions in
the great cause, for the success of
which he has labored so ardently,
have not yet come to an end. But,
whatever may be in the future, it
may be said of him, in the language
of the great American statesman
and orator—"the past at least is
secure." The impress of his talents,
his indomitable energy and per-
severance, has been indelibly made
on the great work, and the honor
cannot be taken from him.

We have omitted to state that
the old Board of Directors were
all re-elected, except that Mr.
Lapsley is put in the place of Col.
Phillips, by the vote which elected
the latter to the Presidency.

In France some of the rail-
roads have great speed. A recent
mail from India started from Cha-
lons at noon precisely, and arrived
in Paris at three o'clock. The en-
tire distance thus accomplished in
three hours was 225 miles—an av-
erage of 75 miles an hour! The
mail was packed in a second class
car, and this, with the tender and
locomotive, composed the entire
train.

While thousands fall by
clashing swords, ten thousands fall
by corset boards; get giddy fol-
lowers, thoughtless train—for sake
of fashion yield to pain—
Tight Boots.

Accident and Loss of Life on the South Carolina Railroad.

We learn from the Columbia
Palmetto State Banner, of the
27th ult., that the excessive rain
have done most serious damage to
the railroad culverts below. On
Friday evening, the 26 ult, as the
Camden train proceeded from the
Junction towards the Wateree, the
bank and culvert near Clarkson's
turn-out being loosened by the
washing rains, the cars were pre-
cipitated over the bank. The ven-
erable Col. Richard Singleton, and
his grand-son Robert, son of the
late Marion De Veaux, were in-
stantly killed. Mr. Bradley, of
Sumter, received such serious in-
juries that his life is despaired of.
Young Mr. Maysrat had a leg broken.
A gentleman from New
York had his clavicle broken. Mr.
Shiver, the baggage master, was
brained badly. The conductor, Mr.
Scantling, was badly injured. Two
Germans, who were on the car, are
missing, supposed to be buried un-
der the wreck. A woman who sold
cakes in the car has not been seen
since. The engine passed over, but
the tender and passenger car were
dashed to pieces. No passenger in
the passenger car was injured. Col.
Singleton and grandson were in the
baggage car.

The culvert at Dry Branch, two
miles above Gadsden, also gave
way on the same night with a
freight train. The engine got over,
but four cars of the train were
thrown off.

CIRCUMSTANCES OF THE SHOOTING
OF MR. THOS. CARNEAL.—We have
obtained thus long from giving
any notice of Mr. Thomas Carneal,
the son-in-law of the Governor of
our State, that we might get the
particulars. It seems that the
steamer C. D. Watkins, with Mr.
Carneal as passenger, landed at or
near the plantation of Judge James,
in Washington county. Mr. Car-
neal had heard that the Judge was
an extremely brutal man to his
slaves, and was likewise invited
with several others to take a drink
with him. Carneal replied that he
would not drink with a man who
abused his negroes; this the Judge
resented as an insult and high words
ensued. The company took their
drinks, however, all but Mr. Car-
neal, who went out upon the bow
of the boat and took a seat, where
he was sought by Judge James,
who desired satisfaction for the in-
sult. Carneal refused to make any,
and asked the old gentleman, if any
of his sons would resent the insult
if he was to slap him in the month?
To which the Judge replied, that
he would do it himself if any of
his sons would not. Whereupon
Mr. C. struck him in the mouth
with the back of his hand, the
Judge resented it by striking him
across the head with a cane, which
stunned Mr. C. very much, caus-
ing the blood to run freely from the
wound; as soon as Carneal recov-
ered from the blow he drew a
bowie knife and attacked the Judge
with it, inflicting several wounds
upon his person, some of which
were thought to be mortal.

Some gentlemen, in en-
deavoring to separate the combat-
ants, were wounded by Carneal.
When Judge James arrived at his
house, bleeding and in a dying state
as it was thought, his son seized a
double-barrel gun, loaded it heavily
with large shot, galloped to where
the boat was, hatched his horse,
and deliberately raised his gun to
shoot Carneal, who was sitting upon
a cotton bale. Mr. James was warn-
ed not to fire, as Carneal was un-
armed, and he might kill some in-
nocent person. He took his gun
from his shoulder, raised it again
fired both barrels in succession,
killing Carneal instantly.

It is a sad affair, and Carneal
leaves, besides numerous friends, a
most interesting and accomplished
widow to bewail his tragical end—
Ficksburg Sentinel.

POWER'S BUST OF CALHOUN.—We
have been kindly permitted to peruse
a letter from Hiram Powers, the dis-
tinguished sculptor, to a gentleman in
this city, in which he refers as follows
to his bust of Calhoun, which was pur-
chased some time since by a portion
of our Congressional delegation, and will
be placed in the State House at Colum-
bia. Says Mr. Powers:

"I have no bust in my studio which
attracts so much attention as Calhoun's
if I except ideal ones. Many have
said that it would pass for a bust of
Brutus. One said: 'I should not like
to be judged by that man, unless my

A Word to our Patrons.

In consequence of the crowded state of our advertising columns, we have for some weeks past issued extras; but this mode being laborious and expensive to ourselves, & inconvenient to our readers, we have determined upon an enlargement. So soon as we can perfect our arrangements, we design to enlarge our paper, at least four columns over the present size, and print it on new and beautiful type; in fact to make it equal in size, in neatness of execution, and so far as we are able, in usefulness and interest, to the first class papers of the State.

In order to do this we will need the assistance of our patrons; and we will now make to them, what we know they cannot consider less than a liberal proposition. All who are in arrears for subscription, for any number of years, who will settle up before the first day of February next, can have the privilege of doing so at the advance rates of two dollars per year; and all new subscribers who will give or send in their names previous to first February, can have the privilege of paying the advance price, \$2 per year, within the first six months. We confidently expect that our patrons will promptly and liberally respond to this proposition on our part; especially when they reflect, that all received from this source is to be expended for their benefit and advantage; and we hope that as many of our present subscribers as can conveniently do so will include the year 1853 in their advance payments.

Now is the time for our patrons and the friends of our paper to give us their aid. Send in your names, and do not let this request pass from your memory, until you have, by your influence and exertions, materially aided us in a laudable effort to make our paper the pride of our County.

We invite the attention of our readers to the card of A. P. Pfister, Book-Seller, Montgomery Ala.—Mr. Pfister has been successfully engaged in the book business for a number of years, and has on hand one of the most beautiful and comprehensive collections to be found any where in the State.

A few days ago a deposit was made of gold from Australia, the first, we believe, that has been received there. The depositor was a young man of this country, who had been in California for two years, but was unlucky and made nothing. Tempted by the reports from Australia, he sailed for that country and went to the diggings. In two months he succeeded, by great good luck, in getting about five thousand dollars worth of the dust. With this "bird in hand" he concluded to come home, and deposited a portion of his earnings, as we have said. The gold is superior in richness to that from California, being worth about two dollars more in the ounce.

Colonel Benton, who delivered a speech at Jackson, Miss., on the 26th ult. He closed with the following happy reference to that of his ancient Senatorial associates, now deceased: "For myself, I feel all the gravity and responsibility of my position. Time and events give a location, which cannot be disturbed, and which carries us along to that 'home from which no traveler returns' and events which thin the ranks of our contemporaries, and leave survivors who are isolated. I have seen the departure of some of those with whom I have long been associated, often in the fiercest political contest, never in malice or envy; Calhoun, Woodbury, Clay, Webster—have all gone—leaving voids where they stood, and the reflex of a light which shines through the world, and will be seen by after ages to the latest posterity. In the presence of such impressive events, and on the verge of such a time, I can have no feelings but those of good will to the departed, good wishes for the living, solicitude for the natural honor and prosperity of an anxious desire to save for myself the good opinion, valued beyond all price, with which my countrymen have honored me."

John W. Crockett, son of "old Davy," died in Memphis, on the 24th ult. He had served several years in Congress, and was said to be a patriotic and useful man.

Hon. Charles G. Atherton, has been elected U. S. Senator, from New Hampshire, over John P. Hale, the arch-agitator and abolition demagogue.

Ex-Secretary May is travelling in the South—at last accounts he was spending a few days with Ex-Gov. McDonald at Marietta.

The South Carolina Legislature has elected the Hon. W. F. DeSaussure U. S. Senator, until the 4th March next.

The Groans of Etna.

Bayard Taylor, the correspondent of the N. Y. Tribune, has written a very graphic description of the recent eruption of Etna. Of the travail of the mountain, before the floods of lava broke out, he says: "The sound was the most awful that ever met my ears. It was a hard painful moan, now and then fluttering like a suppressed sob, and had at the same time an expression of threatening and of agony. It did not come from Etna alone. It had no fixed location; it pervaded all space. It was in the air, in the depths of the sea, in the earth under my feet—everywhere, in fact; and as it continued to increase in violence, I experienced a sensation of positive distress. The people looking anxious and alarmed, although they said it was a good thing for all Sicily; last year they had been in constant fear from earthquakes, and that an eruption invariably left the island quiet for many years."

"The heat of the day and the continued tremor of the air, filled me into a sort of doze, when I was suddenly aroused by the cry of a soldier, and the stopping of the diligence. At the same time there was a terrific peal of sound, followed by a jar which must have shaken the whole island. We looked up to Etna, which was fortunately in full view before us. An immense mass of snow white smoke had burst up from the crater and was rising perpendicularly in the air, its rounded volumes rapidly whirling over each other, yet urged with such impetus that they only rolled outward after they had ascended to such an immense height. It might have been one minute or five—for I was so entranced by this wonderful spectacle that I lost the sense of time—but it seemed instantaneous (so rapid and violent were the effects of the explosion) when there stood in the air, based on the summit of the mountain, a mass of smoke four or five miles high, and shaped entirely like the Italian pie tree."

"Words cannot paint the grandeur of this mighty tree. Its trunk of columned smoke, one side of which was silvied by the sun, while the other, in shadow, was lurid with red flame, rose for more than a mile before it sent out its cloudy branches. Then parting in two, it again threw out its branching tufts of smoke, rolling and waving in the air, it stood in intense relief against the dark blue of the sky."

The U. S. MEX.—The Philadelphia Evening Bulletin under stands that the receipts of gold dust at the United States mint in that city, during the month of November, have been about \$7,250,000. This is the largest amount ever deposited there during a similar period. The exports of specie to Europe, during the month, have been less than nine hundred thousand dollars. There need be no fear now of a scarcity of gold coin for some time.

A few days ago a deposit was made of gold from Australia, the first, we believe, that has been received there. The depositor was a young man of this country, who had been in California for two years, but was unlucky and made nothing. FOR THE REPUBLICAN.

Messrs. Editors.—In consequence of a contemplated change in the plan of the Jacksonville Circuit, I was directed by the Fourth Quarterly Conf. not to make out any plan until it was ascertained that could be done, and as soon as the matter was settled, to make out the appointments and forward them to you, with the request that you publish them in the Republican. By so doing you will not only oblige the members of the Quarterly Conf., but a large number of your friends.

The members will observe that no change has been made, but it is hoped to furnish the circuit with two preachers.

Will the brethren and friends who take the Republican, in the bounds of the circuit, give the appointments as an extensive circulation as possible. The appointments are as follows:

Reufro's Saturday Dec. 25th
Jacksonville Sunday " 26
Union Thursday " 30
Green's Creek Friday " 31
Willis's Saturday Jan. 1
Cane Creek Sunday " 2
Alexandria Sunday " 2 3 o'clock
Pine Grove Thursday " 6
Taylor's Friday " 7
Cold Water Saturday " 8
Oxford Sunday " 9
Boiling Spring Sunday " 9 o'clock
Calhoun Monday " 10
Thrasher's Tuesday " 11
Boring's Wednesday " 12
Mascaden Thursday " 13
Howell's Friday " 14
Grimes's Saturday " 15
White Plains Sunday " 16
Narrows Sunday " 16 3 o'clock
Hook's Cove Tuesday " 18.

In conclusion I would say to the members, that in the arrangements of the appointments I have done the best I could under the circumstances.

Yours truly,
JOS. T. CURRY.

A late Paris letter says—"The accounts are bent upon rendering their profession every day more and more perilous. During the whole of the past year the ascensions from the Hippodrome have been made with gymnasts suspended beneath the car, executing their terrible exercises during the passage of the balloon to the clouds. The last experiment was the reverse of this. It consisted of the descent of a parachute from an enormous altitude, with M. Godard hanging below it. He turned somersaults, and performed all sorts of rigaradons in the air, from the time when the cord was cut, till it was time to look out that he touched the ground with his feet. The experiment was successfully and gracefully performed."

OBITUARY.

DEATH.—At Pickensville, on Friday evening the 10th of November, 1852, Mary Annelle, infant daughter of Maj. Albert P. and Sarah A. Burt, aged three years and one month.—This little sufferer was attacked with inflammation of the bowels, in Benton county, whither her parents had gone on a visit for the health of the babe and its mother. For fifty-five days the dear child lay in bed, enduring such sickness and pain as none may attempt to describe. We regret its sweet features, distorted with the agonies of disease, and we are almost smiling in death. Dear Adelle! thy mortal remains are at the wreck of the cedar, from which the stainless spirit of a perfect loveliness, has been transferred to a place of heavenly purity. Weep, heart-stricken parents, for your own loss; for this is nature's tribute; but be thankful that your precious one has realized the Savior's declaration—"For of such is the kingdom of heaven."

ANIMAL CHEMISTRY, or chemistry applied to the Physiology of Animal life, has made some most astonishing discoveries during the last century, but none more important than the analysis of the Gastric Juice, and the consequent explanation of the process of Digestion, and the cause of Dyspepsia. With our knowledge of the properties of the Gastric Juice, and the means of obtaining it, how easy is the cure of Dyspepsia! The real Paris accomplishes the work, at once, and forever. Dr. Houghton, of Philadelphia, has applied this principle, most happily and successfully, in a popular preparation of Pepsin, which bears his name. Dyspepsia should not fail to look into this matter.

MOBILE, MONTGOMERY & WETUMPKA Regular Weekly Packet.

THE superior, fast-running, double-ended passenger steamer FASHION, Capt. Jesse J. Cox, has commenced her regular weekly trips for the season.

She will leave Mobile every TUESDAY, at 12 m., and will land her passengers in Montgomery on Thursday morning in time for the cars going east. On return trip will leave Wetumpka every FRIDAY morning at 9 o'clock, a. m., and Montgomery every FRIDAY evening on the arrival of the eastern cars, and will arrive in Mobile on Sunday evening in time for passengers going by New Orleans Mail Boat.

Her state-rooms and cabins are superior, no pen or not expense having been spared to make them in every respect like the traveling community desire—comfortable and airy. Captain Cox and his officers being so well known to the traveling community for years past, further comment is considered unnecessary.

For freight or passage, apply on board, or to JOHN H. MURPHY, Agent.

THIRD ANNUAL CIRCULAR

OF THE

Hardenville Male Academy

Situated in Hardenville, Tal-
ladesha Co. Ala.

THE scholastic year for 1853-54

will commence on the 2nd Mon-
day in September next, under the following

Board of Instructors.

A. B. LEVISEE, Principal

P. H. GARNSEY, Associate.

The first session of the year will

begin with the first week in Feb., and

the 2nd session will begin on the

text ensuing Monday, and will

close with the annual examination

on the last Friday before the 4th of

July.

The object of Education should

be to develop the intellect, to cul-
tivate the sentiments, and to form

the character—to give it strength

and activity, and thus fit the youth

for serving and adorning society.

Whoever has duly considered the

value of the human mind, knows

that this result can only be obtained

by a thorough course of systematic

discipline, which must be com-
menced while the mind is com-

pletely plastic and easily susceptible,

and continued with a steady hand

through those early years in which

the formation of the character is

going on so rapidly. An efficient

character is rarely or never a sponta-

neous growth. The habits of regu-

larity, promptness and continu-

ous exertion, which are so essential

in life, are to be acquired, and

ought to form a conspicuous part in

the scholastic exercises of every

student.

The course of instruction in this

institution is designed to embrace

First, the study of those subjects

which shall make the student thor-

oughly acquainted with the use of

his own language—including the

various treatises on the subjects of

English Grammar, Rhetoric, Logic,

History and Geography, together with

languages, Ancient and Modern.

The instruction in this department

will be strictly practical, carefully

avoiding the diffuseness of set ques-

tions and answers.

Comparative Philology, in con-

nection with this department, will

be given, and each subject will be

taught in an important place.

Secondly, the order of studies

embraces a thorough and complete

course of Mathematics, including

Arithmetic, Algebra, Geometry, and

Trigonometry. The plan of instruction

in this department is to require the

student himself to demonstrate

everything. It is the in-

tention to establish in the school

during the present year a depart-

ment of Plane Surveying and Civil

Engineering, in which young men

may learn these important and useful

branches practically.

The favorableness of this locality

for a school is too well known to

require a notice. The pleasantness,

Each student will be charged two dollars per year for the purpose of furnishing wood and water, and for other necessary attention to the school rooms. One half the tuition fee is payable in advance, the other half at the close of the session.

BOARDING.
Board can be obtained in the village and immediate vicinity, on the best of families, at from \$10 to \$12 per month including washing, fuel, lights, &c.; half payable in advance; the other half at the end of the term.

Should parents be unable to accompany their children to the Institute, they need not hesitate about sending them on account of boarding, as the President of the Institute will carefully see that they are provided with good boarding houses.

Parents are requested to send their children in time for them to be ready to enter upon their studies the first day of the session. This is highly important as the pupils will experience through the whole course, the benefit of beginning with their classes.

The healthy location of the Institute; its entire exemption from local cause of disease; the moral and religious character of the community; the prohibition of the sale of ardent spirits in the village and for two miles around; its central position and ease of access, and facilities of communication, (having a daily mail Sunday excepted) together with the established reputation of the Faculty in their various departments of instruction, should insure to this Institute a liberal patronage, and the Trustees confidently recommend it to parents and guardians, who have children to be educated.

Commission Merchants,
ROME, GEORGIA.

THE undersigned respectfully inform their friends and the public generally, that they have entered into a partnership, for the purpose of doing a Warehouse and Commission Business, under the firm and style of M. A. STOVALL, & Co. They will have completed by the first of September, 1852, a large and commodious Warehouse, immediately in the centre of the business part of Rome, where they will be prepared to receive, store and sell any species of merchandise; Cotton, Corn, Wheat, Bacon, &c. &c. They will also make liberal advances on cotton to other produce in store, or will ship the same to Charleston, Savannah or Augusta, charging only the legal rate of interest on the amount advanced. From the long experience of one of the firm in the Commission Business, they flatter themselves they present advantages to planters sending produce to this point, not surpassed by any House in Rome. Their charges will correspond with those of other Houses in the city.

THE REPUBLICAN.

TUESDAY DECEMBER 29, 1852.

Mr. E. W. Carr, is the author of this paper in Philadelphia.

Examination.

We had the pleasure, on last Friday, of attending the examination of the pupils of the Jacksonville Female Academy under the superintendence of Miss Norrump. We believe we express the opinion of all who were present, that Miss Norrump, at each successive presentation of her pupils before the public, gives additional evidence of that merit claimed for her by her friends.

Every thing passed off pleasantly and to the entire satisfaction of the audience. The misses and young ladies proved themselves to be good spellers and readers—sharp little philosophers—good Grammarians, Historians, Arithmeticians, Algebraists, Logicians and Critics.

Miss Douglass and her Music Class added great interest to the occasion by appearing between the recitations with well selected and well executed pieces of music. We desire not to draw invidious distinction between the performers—for all performed their parts well, very well—but we cannot forbear mentioning particularly the execution of *La Reve*, one of Wallace's most difficult and finished pieces by Miss A. H. For one of her tender years, we think such a feat a little remarkable, and certainly evinces on her part a great deal of patience and perseverance in the prosecution of her studies; and also reflects great honor upon her instructress.

The young ladies in the Literary department read, during the day, some of the best conceived and best finished compositions that we have listened to in many a day. If they only continue to exercise the talent which they have already evinced in the productions made public, we hazard nothing in saying, for many of them, there is a bright future ahead.

The exercises concluded with a Woman's Rights Convention in which the young ladies participated—much to the amusement and entertainment of the audience.

We cannot conclude this very imperfect notice of the interesting exercises of last Friday without appealing to all who have daughters to educate, to send them to our town. Under the training of Miss Norrump a young lady may soon acquire an education—intellectual and moral—which will make her the pride of her family and an ornament in society.

Read the school advertisements in to-day's paper. With regard to the school of Dr. Gleize and Grandma Wilkie, it is proper to say that its last term closed on Monday the 20th inst. with a public examination. We were not present but hear from others that the pupils did very well. One thing we know, the old lady is energetic and will do all she can for the instruction of the little fellows committed to her care.

We hope all of our subscribers and patrons have had a Merry Christmas. We wish them a happy New Year!

Hon. W. R. King.—The indisposition of the Hon. W. R. King has increased to such an alarming extent, as to compel him to resign his place as President of the Senate. Many fears are entertained that he will not sufficiently recover his health to resume the responsible duties of Vice President of the U. S.

Senator Atkinson of Missouri has been chosen to fill the vacancy occasioned by the resignation of Col. King.

We join most heartily in the wish expressed by our democratic brethren, that rest from active duties will restore him to health.

SMALL BANK BILLS.—According to the New Code which goes into operation on the 17th January next, all persons who pass or circulate any bank bill, of less denomination than five dollars, not issued by the authority of this state, on conviction will be fined not exceeding fifty dollars.

Louis Napoleon has been declared Emperor of France, under the title of Napoleon III, by a majority of 7,467,718 votes.

GODEY'S LADY'S BOOK for January is a double number, containing seven full page plates, a number of wood engravings and the usual variety of interesting reading matter. This number is commenced with a Nouvelle by Mrs. Caroline Lee Hentz, entitled "The Hermit of Rockrest," which has been copy righted by the publisher.

The subscription price of the Lady's Book is three dollars per year, but we now propose to furnish any one, who may desire with the Jacksonville Republican and Lady's Book, one year for \$4; or the Republican, Lady's Book & Arthur's Home Gazette, for \$5 50.

OUR RAILROAD.—We have not said anything of late in regard to this work, simply owing to the fact that we had nothing new to tell our readers about it. The assertion that the road would pay so soon as it reached Montevallo will soon be proven true or otherwise. For our own part, we have more confidence now than ever, that such will be the case. Any one will be convinced of this fact, who will visit the depot of a morning about the time the cars leave for the up country. Let him notice the groceries and other merchandise carried up every trip; and then when the cars return at evening laden with cotton, as they do every trip, let him see all this, and then say whether any reasonable man can entertain a doubt about its being a paying road. We understand that the Directors intend concentrating their means and forces on that portion of the route lying between Montevallo and the Cosariver. This we consider an excellent movement and one which will tend to facilitate and expedite the work in this long run.

We clip the above from the *Selma Enterprise* of the 23 inst and rejoice in all the declarations made except those contained in the last two paragraphs. The Resolution, passed by the Board of Directors, at its last session, which warrants the *Enterprise* in saying that all the strength of the company is to be concentrated below, seems to us to have been hastily and very inconsiderately passed. And we have every hope that the Directors will view it in the same light and rescind the resolution. At the first blush, we dare say the Board thought it would be best to stop the work in this section and concentrate all the energies and resources of the company between Montevallo and the Coosa River. But we cannot believe, when the Directors see and reflect upon the immense injury that will accrue to the contractors in this region that they will inflict such injustice upon them, and the by impair, as we think, the prospects of the road.

THE NEXT GOVERNOR.—We have noticed lately several communications in our exchanges upon the subject of the next gubernatorial election in Alabama, and have heard the names of several gentlemen suggested in private conversation as suitable candidates of the Democratic party for that station.

In the last *True Democrat*, published at Etaw, we observe a communication over the signature of *Publius*, suggesting the name of John A. Winston as a suitable person for that station, in which the following tribute is paid him, to the justice of which every member of the party, at all conversant with Col. Winston's devotion to his party, and the best interests of the State, and the country will readily subscribe:

"No man, in my humble opinion, so eminently deserves this distinction at the hands of his party as Col. Winston, and every one seems to turn to him as the successor of Gov. Collier. He has long been conspicuous as the champion of true democratic principles and the invincible leader of democratic phalanxes to victory. His public experience is large, his judgment clear, his will firm, and his republicanism of that inflexible stuff which never swerves or wavers. In the House of Representatives and in the Senate his leadership has been acknowledged, and before the people defeat has never yet followed his flag. That he possesses all the elements of administrative talent cannot be denied; that his public services entitle him to this distinction will not be questioned; and that his nomination would be the sure augury of victory, no one doubts."

Feeling, as we have long felt, the value of Col. Winston's strong arm, both in and out of the Legislature, in our contests with the enemy, we could not in justice withhold from him the strong expression of our commendation to the Democracy of Alabama. But while we do this, let it not be supposed that any member of our party is not to receive ample justice at our hands through our columns, or that we intend improperly to interfere in the contest. As the central

organ of the party, all shall have a fair hearing from us. Others of our personal friends have been spoken of in connection with the gubernatorial office; such tried men, and true, as Sampson W. Harris, Thomas A. Walker, and others, and it would be doing violence to our own feelings to do them an injustice or unkindness. To select from such a list of reliable and unwavering Democrats, is a matter of great delicacy, and requires great prudence and caution on the part of our friends. We must come to the task in a spirit of harmony and conciliation, with a full determination to support the nominees, and no body but the nominees; provided, of course, that he be honest and capable, and it is not to be supposed that the convention will select any one to be our standard bearer who is not. Any Democrat who is not perfectly willing to submit his claims to the arbitration of his party friends, and to abide by their decision fairly expressed, is unworthy the confidence or support of any true Democrat for the office. Let such be the watchword and all will be well.

THE PUBLIC LANDS. Abstract of the Report of the Commissioners of the General Land Office.

	Acres.	Acres.
Land surveyed the past year	9,322,222	
Land surveyed for sale	6,032,437	
Land sold for cash during the year	1,533,371	
Land sold by Bounty Land Warrants	2,201,314	
Land sold with other Certificates	115,651	
Total	4,379,337	
In addition were re-estimated as Swamp Land Grants, &c.	3,245,100	
Aggregate disposed of during the year	7,624,437	
Increase of land in the hands of the Government	1,707,785	
Whole amount disposed of in excess of the previous year	3,916,652	
The sales made have been heavily in favor of the extensive relocations in Mississippi, Alabama and Missouri.		
During the first quarter of 1852, there have been sold	243,255	
Swamp Land and other Certificates	1,337,116	
Land sold by other Certificates	15,619	
Total	1,595,990	
Reported under the Swamp Land Grant Act	2,423,233	
Aggregate during the quarter	4,119,223	

During the past year 25,000 letters were received. 1,191 accounts were adjusted and reported to Comptroller for settlement. 21,503 certificate land sales were issued. 29,226 Bounty Land Warrants were registered. 9,218 declaratory statements were issued. 59,999 Swamp Land internal improvements and other selections were recorded. 79,900 Cash Bounty Land and other Patents were recorded and transmitted. 7,091,519 acres Swamp Land and other selections were certified to the respective States, and upwards of 20,000 pages of letters and accounts were recorded.

There was paid out of the Treasury on Certificates from this office \$110,516 91-100 to receivers, for location of Land Warrants, under the last act upon that subject, by which they were entitled to receive the same percentage on those locations as upon land sales to the same amount.

This Report of Dr. D. D. Owen, on the N. W. Territory, including Nebraska, is in course of printing, and will soon be delivered. Dr. Owen recommended a geological survey of Oregon, and Commissioners concur in the expediency of it.

The total number of land warrants issued from 1847 to 1852, inclusive, are 223,977, embracing 22,424,490 acres; the number of warrants located 121,026, covering 14,292,949 acres; leaving outstanding 101,951 warrants, which call for 7,249,540 acres. There have been issued under the Act of 1850, granting Bounty Land to the officers of the war of 1812, and the Mexican war, 138,965 warrants, covering 9,524,329 acres of land, of which have been located 46,536, leaving outstanding 92,429 warrants.

The Commissioners recommended the passage of an act granting a quarter section of land to every soldier of the war of 1812 who has not already received bounty land, whether regular or volunteer, who served for any length of time, however short. As the number of warrants issued under the Act of 1852, supplementary to that of 1850, is only 1171, it is not probable that the proposed extension of the Bounty Law will require the appropriation of any large quantity of the public lands.

The Private Land Claim Commissioners for California were ordered to hold a session at Los Angeles in September 1852; another at Santa Barbara, November 16th 1852, another at Monterey, on the 16th of February, 1853—but on their own recommendation they had been authorized to omit the sessions at Monterey and Santa Barbara, and to hold one at San

Francisco in November.—On the 3d August they reported that they had rendered a decision embracing most of the important legal questions expected to arise in the land claims of that State. The number of cases then pending before the Board was 295, and testimony had been taken in 115 of them.

The Commissioner recommends the creation of Land Offices in California, Oregon and the territories of Nebraska, Utah and New Mexico, to collect evidence of claims and make other necessary preparations for the sale of the public lands therein.

The Commissioner states the reserved sections of the grants to railroads along their routes have sold readily at the minimum prices fixed by the laws, and the Commissioner thinks these grants have enhanced the value of the Public Lands. He states the average cost of railroads in the Land States at \$25,000 per mile, and thinks that the grant of 3840 acres per mile in aid of railroads in those States will be beneficial alike to them and the General Government.—N. Y. Courier & Enquirer.

SMALL BILLS.—We extract the following sections of the Code, which goes into operation on the 14th of next month, that all may know what the law will be in reference to the circulation of the small notes from abroad, which now constitute an important portion of our currency:

Sec. 3271. Any person who passes or circulates in this State, any bank bill of a less denomination than five dollars, not issued under the authority of this State, must, on conviction, be fined not exceeding fifty dollars.

Sec. 3272. An indictment under the defendant did pass or circulate a bank bill under the denomination of five dollars, not issued under the authority of this State, is sufficient without describing such bank bill; and proof that such bill on its face, purported to be issued by the authority of any other State, or country, or by any bank or corporation out of this State, or by any bank or corporation known to be out of this State, is sufficient without further proof.

STANDARD DISASTER.—Great Loss of Life.—By the arrival this morning of the steamer Gen. Lafayette, Capt. Brown, from Louisville, we learn that on the morning of the 14th inst, at four o'clock, near Princeton, the steamer Western World, from St. Louis, for this port, and the H. R. W. Bill, bound for Nashville, came in collision, which resulted in the total destruction of the former. She was entirely capsized, and her cabins floated off. Thirty persons are supposed to have been drowned, mostly deck passengers.—[N. O. Delta of Friday.]

Ambitious Designs of Nations.—An exchange says: "England is now seeking to annex Bessarabia, Rumania, the Moldavian provinces, France, more of northern Africa; the United States, either Cuba or a part of Mexico; and Prussia, a slice from Switzerland. Men with their millions do not hesitate to cheat their boot-black out of a sixpence. Why should nations, governed by men, neglect the acquisition of more territory?"

Mobile Cotton Market. Telegraphed Expressly for the Alabama Journal.

MOBILE, December 29—1.25. P. M. There is a good enquiry for Cotton. The sales to-day amount to 100 bales. There is a further advance in prices middling 8 14 a s 1-2.

Telegraphed Expressly for the Alabama Journal. CHARLESTON, Dec 29—7. P. M. WASHINGTON, Dec. 29.—In the Senate to-day, Mr. Mason offered a resolution calling on the President for notes from France and England proposing a tripartite treaty relative to Cuba. That gentleman opposed interference with the relations between Spain and Cuba, but said that the time was coming when annexation would be inevitable. Mr. Cass concurred in these views, and reprobated the stand still policy.

NEW YORK COTTON MARKET. NEW YORK, Dec. 21.—The Cotton market is steady. No Steamer yet.

SECOND DISPATCH. CONGRESSional. [Telegraphed expressly for the Alabama Journal.]

CHARLESTON, Dec. 23—11.42, P. M. WASHINGTON, Dec. 22.—The Senate passed a resolution to-day conferring the Lieutenant Generalship on Winfield Scott, by a vote of 34 to 12. Hon. Wm. R. King's health is slightly improving.

NEW YORK COTTON MARKET. NEW YORK, Dec. 22.—Cotton in this market, has advanced 3-8c, and 4900 bales changed hands to-day, taken chiefly by speculators.

Fifty thousand dollars have been subscribed to build the twelve miles of railroad from Marion to intersect with the Selma and Woodville road. One hundred thousand dollars is the estimated cost of the entire work.

ANIMAL CHEMISTRY, or chemistry applied to the Physiology of Animal life, has made some most astonishing discoveries during the last century, but none more wonderful than the analysis of the Gastric Juice, and the consequent explanation of the process of Digestion, and the cause of Dyspepsia. With our knowledge of the properties of the Gastric Juice, and the means of obtaining it, how easy is the cure of Dyspepsia! The real Persian accomplishes the work, at once, and forever. Dr. Foughton, of Philadelphia, has applied this principle, most happily and successfully, in a popular preparation of Pepsin, which bears his name. Dyspepsias should not fail to look into this matter.

CEDAR VALLEY MALE SCHOOL.

THE eighteenth Session of this Institution will commence on the 3rd day of January, 1853, under the direction of the Principal, Mr. BENJAMIN T. MOSELEY, A. M. The scholastic year consists of 10 months, and no student received for a less period than 5 months.—Though students are admitted at any time, it is desirable that they commence at the beginning of the Term. This is mainly a Classical and Mathematical School, yet any branch usually taught in Academies will meet with attention here. Board and Tuition \$70 for a term of 5 months. As many as 10 young gentlemen, if orderly and disposed to study, can be accommodated with board in the family of the Principal, within 100 yds. of the Academy. Board includes dieting, lodging, washing, fuel, attention of servants, and every thing except candles. No deduction in Tuition will be made for absence except in cases of protracted sickness. Board in the neighborhood, in good families, on reasonable terms.

CEDAR VALLEY, Polk county, Ga. 20 miles south of Rome. Dec. 28, 1852.

NO MISTAKE.

TO SUSTAIN my business, I am compelled to make larger collections this Winter, than those of the last two seasons. This is not all talk, but simple truth. I appeal then, to those whom I have heretofore indulged, to make early and liberal payments.

E. J. WOODWARD. Dec. 28, 1852.

THE undersigned would respectfully inform the citizens of Jacksonville and surrounding country that he has taken the well known hotel, now gone, formerly Hall, and has put it in complete order. From his long experience in the business he feels confident that he can give entire satisfaction to all who favor him with their patronage. The arrangement of this first class hotel is too well known to require comment.

E. S. ROGERS, Proprietor. Oct. 12, 1852.—6m.

CAVE SPRING HIGH SCHOOL.

Situated at Cave Spring, Floyd County, Georgia.

The above Institution will be opened on the Second Monday in January next, under the supervision of Mr. J. J. McDANIEL.

Mr. McDaniel is a Southern man, and a graduate of the South Carolina College. He brings with him flattering recommendations from the Secretary of that College, and from the Ex-President, Hon. Wm. C. Preston.

In presenting the above Institution to the public, the Trustees ask nothing more than they hope it will merit—a liberal patronage.

RATES OF TUITION PER ANNUM.

JACKSONVILLE.

THE exercises of this Institution for the ensuing scholastic year will commence on the second Monday in January next, under the direction of T. H. GARNSEY, A. B. Principal.

There will be two sessions of 21 weeks each; the first commencing as above and closing with the summer examination on the Friday before the first Monday in June. The second commencing on the second Monday in August, and closing with the winter examination on Friday December 20th.

It is the determination of the Principal to render this Institution second to none, of a similar character in the state. The unanalyzed system of instruction will be strictly adhered to, and the more routine of text-book questions, so calculated to instill superficial and inaccurate habits into the mind of the students, will be scrupulously avoided.

At the semi-annual examinations, in the Mathematical and higher English branches, the student will be required to exhibit his attainments, in any part of the studies of the session assigned him and conduct the discussion himself. Sufficiently advanced students will find here the means of obtaining a critical and extensive knowledge of the Classics, Mathematics and higher English branches, while the younger and less advanced, will receive that care and attention so indispensable, in laying the foundation for future progress in their studies.

Those wishing to enter the Freshman or the more advanced College Classes will receive as speedy and thorough a preparation, as their age and respective abilities will admit.

Exercises in composition and declamation will be attended to weekly. At an early period in the session, a debating society will be formed among the students, by attendance upon which, they will acquire an acquaintance with the rules of debate, a freedom and ease of expression, and a control of their own minds not otherwise to be attained.

Reports of the Regularity, Scholarship and Conduct of each student will be made up quarterly, and forwarded to parents and guardians.

The most extraordinary discovery in the World is the Great Arabian Remedy for Man and Beast.

H. G. FARRELL'S Celebrated Arabian Liniment.

The beautiful and fertile region skirting the desert of Arabia, abounds with rare plants and odoriferous woods, whence are procured those aromatic gums and balsams which this Liniment is composed, and by whose stimulating, unctuous and penetrating properties it is, when applied, diffused through the whole nervous system, alleviating the most intense pain in a few minutes. Try it, when you will be convinced the no preparation possesses in so high a degree its perfect anodyne qualities. Its action is prompt and effective. It penetrates the flesh to the bone, relaxes contracted muscles, restores use to limbs paralyzed for years, and where the flesh has wasted away, leaving nothing but skin and bone, excites a healthy action, causing new flesh to grow out and fill up the shriveled parts. It restores the synovial fluid or joint water, and this is the reason why it has been so successful in the diseases of the joints. In affections of the Spine, Liver, Lungs and Nerves, this great remedy stands before any other ever produced. For acute cases of enlargement of the spleen, it is a specific. For any internal inflammation, you will find it gives great relief. It has no equal in the world for Rheumatism—also, cramps, swelling, numbness, weak joints Spine and Chest, pains, wounds, chilblains, burns, sore throat, bites of insects and reptiles, salt rheum, warts, corns, mange, and indeed nearly all diseases when require an external application, and many others, are greatly benefited by it. It is used externally with great success in gonorrhea or swell of neck, scrofula or King's Evil, Liver Complaint, nervous diseases, &c., For Horses or Cattle, it is as effectual in all diseases of man. Will cure any case of Sweeney in existence; also, Sprain, Spinal Rheumatism, Big-head, Fistula, Farcy, Poll Evil, Windgalls, Strains, Bruises, &c.

Look out for Counterfeits! The public are cautioned against another counterfeits, which has lately made its appearance, called W. B. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because his having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeits exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is only by H. G. Farrell, sole proprietor, and wholesale agent, No. 17 Main street, Peoria, Illinois, whom all application for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELLS—and his signature on the wrapper, all others are counterfeits. HENDRICK & NISBET, Jacksonville Ala., W. P. CALDWELL, Oakville, Randolph Ala., and by regularly authorized agents throughout the United States.

Price 25 and 50 cents, and \$1 per bottle.

AGENT WANTED in every town, village and hamlet in the United States, in which one is not already established.

Address H. G. Farrell as above, accompanied with preference as to character, and responsibility.

on account of boarding, as the President
of the Institute will carefully see that
they are provided with good boarding
houses.

Parents are requested to send their
children in time for them to be ready to
enter upon their studies the first day
of the session. This is highly impor-
tant, as the pupils will experience
through the whole course, the benefit
of beginning with their classes.

The healthy location of the Institute;
its entire exemption from local cause of
disease; the moral and religious char-
acter of the community; the prohibition
of the sale of ardent spirits in the vil-
lage and for two miles around; its cen-
tral position and ease of access, and fa-
cilities of communication, (having a
daily mail Sunday excepted) together
with the established reputation of the
Faculty in their various departments of
instruction, should insure to this Insti-
tute a liberal patronage, and the Trus-
tees confidently recommend it to pa-
rents and guardians, who have children
to be educated.

WAREHOUSE NOTICE, 1892.
GILMER & CO.
Warehouse & Commission Merchants.

**FIRE-PROOF COTTON SHEDS AND CLOSE
STORAGES.**
THE undersigned beg to tender
their thanks to their friends and the
public generally for their past liberal sup-
port, and hope, by prompt attention to the
interest of their patrons, to give full sat-
isfaction, and merit a further extension of
their business. They have now in course
of erection a NEW FIRE-PROOF COT-
TON WAREHOUSE, situated on the prop-
erty so well known as Bibb & Nick-
els' Warehouse, for convenience,
will be unequalled by any other in the city,
and also a NEW CLOSE STORAGE
WAREHOUSE, situated immediately in
front of their old stand. With these addi-
tions to their present large capacity for
storage, they may safely promise to their
customers that their Cotton and other pro-
duce will be well sheltered and taken care
of.

From the facility of their Warehouse—
immediately on the bank of the river—they
are enabled to offer extra inducements as to
promptness and dispatch in their shipping
department, as well as security in case of
fire.

Special attention given to the sale
of Cotton.

All consignments of Cotton per
Railroad received free of drayage to the
shipper.

They offer for sale, at the lowest
market prices—

WAREHOUSE

Commission Merchants.
ROME, GEORGIA.
THE undersigned
respectfully inform their
friends and the public generally, that they
have entered into a partnership, for the
purpose of doing a Warehouse and
Commission Business, under the
firm and style of M. A. STOVALL,
& Co. They will have completed by the
first of September, 1892, a large and com-
modious Warehouse, immediately in the
centre of the business part of Rome, where
they will be prepared to receive, store
and sell any species of merchandise; Cot-
ton, Corn, Wheat, Bacon, &c. &c. They
will also make liberal advances on cotton
and other produce in store, or will ship the
same to Charleston, Savannah or Augusta,
charging only the legal rate of interest on
the amount advanced. From the long ex-
perience of one of the firm in the Com-
mission Business, they flatter themselves
they present advantages to planters send-
ing produce to this point, not surpassed by
any House in Rome. Their charges
will correspond with those of other Houses
in the city.

M. A. STOVALL,
J. H. LUMPKIN,
J. S. PHINTUP.

Checks on New York or Charleston at
sight sold, and advances made on cotton or
other produce, either stored or shipped by

Ware House and Commission Business.

W. JOHNSON

RESPECTFULLY tenders his thanks
to his old Customers and the pub-
lic for their past patronage, and would
respectfully solicit a continuance of the
same. He pledges himself to give his en-
tire attention to his business—all orders
for articles wanted will meet with
prompt attention. He will always be
found at his **Ware House** there to give
attention to the reception of Cotton or
orders—or at his repository ready to fit
you out with a Buggy or Carriage.

"VENI, VIDI, VICI."
"WHY, McCay, what in the world
are you going to do with all
this Hardware?" is the daily exclaima-
tion of all who visit the Hardware
Store. "Sell it," I reply. Yes, and
I will sell it; for the people are begin-
ning to find out that when they want
Hardware the Hardware Store is the
place to find it, and at Fair Prices at that.
And it is now well settled that Rome
will support an exclusive Hardware
Store. Come then, Gentlemen and Lad-
ies, one and all, and examine my
Stock—the largest in the State, North
of Augusta, and see the sights! for
you will find many things, and useful
ones, too, at McCay's, that you never
saw before. An enumeration of my
stock would fill the Courier, for it is
extensive and various.

For "Tinners" use, I have Tin, &c.,
and will sell it low for the tin or on
short credit.

For Blacksmiths, I have Iron, An-
vils, Bellows, Vices, Stock and Dies
Hammers, Axes, Springs, &c. &c.

For Farmers I have all the useful
tools in their line, and the same for
Carpenters, Coopers, Tanners, Shoem-
akers, &c. &c.

Also, Mill Saws, &c.—Guns, Rifles,
Pistols, Gun locks, Wrenches, Tubes,
Cutters, Wadding, &c. &c.

And for the special accommodation
of those going to HOUSE-KEEPING,
I have the most beautiful stock of Table
Cutlery: Silver Forks, Spoons,
Butter Knives, Sugar Tongs, &c. &c.,
ever brought to this country. Also,
Teas, Matches, Spoons, Candlesicks,
Snuffers, Plates, and Trays, together
with a thousand and one other "fancinesses,"
too tedious to mention.

"Come on, come on, all, and
examine for yourselves," and
then you will be able to test the
difference between a REGULAR
HARDWARE STORE and an outside
